Summary — Passionate software engineer with 3.5 years of experience in developing web applications and backend systems. Proficient in the software development lifecycle, including requirement analysis, design, coding, optimization, debugging, and deployment of enterprise-grade applications, consistently delivering high-performance, and reliable solutions.

Skills

FrontEnd: Html, Css, Javascript, jQuery, React.js, Redux, ReactNative

Database: Microsoft Sql Server

BackEnd: C#.Net, Asp.NetCore, Restful WebApi

OS: Windows 10 , 11 and 7

Tools: Git and working with CI/CD pipelines, Jira, Postman

Software: Visualstudio ,VSCode ,Sql Server 2014

Experience

Webstorm Information Technology

Mar 2022 – Present

Full Stack Developer

- Developed and maintained web applications using Redux and React.js, enhancing performance by 20%.
- Implemented firewall rules to enhance network security and prevent unauthorized access
- Designed and integrated RESTful APIs, improving data access and application functionality.
- As a skilled Software Developer at WebStorm IT, I specialize in developing dynamic web applications using JavaScript, HTML, CSS, C#, Sql ,Asp.net Core.
- Worked closely with QA teams to ensure high-quality releases, reducing bugs by 25%.
- Optimized database performance through indexing and query tuning techniques
- Conducted capacity planning and scalability assessments to support future growth

Webstorm Information Technology

Nov 2021 – Mar 2022

Software Engineer Trainee

- Developed a dynamic customer information dashboard using React Hooks, effectively consuming REST APIs to deliver real time data and insights, enhancing user experience and decision making capabilities
- Developed an e-commerce website using React JS and Headless e-commerce Rest APIs

Projects

E-commerce Platform Development:

Mar 2022 – Present

- Built a London shopping app in React.js, focusing on user-friendly design and scalability.
- I played a key role in developing a comprehensive eCommerce web application tailored for the London market, implemented in React.js
- The project involved creating a highly responsive and intuitive user interface that catered to both desktop and web application users

React Websites for Services:

July 2022 – Present

- Developed React websites for Car transfers, Uber, hotel bookings, theatre bookings, Tours , Activities ,Bus tickets and London pass Distribution using third-party APIs for seamless integration.

API Integration:

July 2022 – Present

- Integrated over 10 third-party services (Big Bus, LondonTheatre, Golden Tours, Musement,Tootbus ,Distribution and Core E-sim Apis) using C Asp.net core Web API and data analytics from Sql database , enhancing functionality and user experiences.

Mobile App Development with React Native:

Mar 2022 – Present

- Developed a cross-platform mobile app integrating secure payment options, including a POS payment system in Android Studio. Created a mobile app for Heathrow Express train ticket ordering and Oyster card And London pass tickets.

Education

Anna Universtity, University College of Engineering, Dindigul

Aug 2016 – Oct 2020

- Bachelor's Degree in Electronics and Communication Engineering

Bharathi Matric higher Secondary School, Thammampatty

July 2014 – May 2016

- State Board of secondary Education
